

Conventional Core Barrels

Northeast Geotechnical Supply offers a wide range of core barrel products. These include single and double tube core barrels used in a variety of conditions in both D.C.D.M.A. and metric dimensions.

Conventional Core barrel offerings include:

- NWD-4 - double tube- split and solid inner tube
- HWD-4 - double tube - split and solid inner tube

NWM double tube

- HWG double and single tube
- NWG double and single tube

- Large diameter series
- 2 3/4" x 3 7/8"
- 4" x 5 1/2"
- 6" x 7 3/4"

In addition we stock a large variety of consumable items for these core barrels including, diamond and carbide bits, core lifters, lifter cases, inner and outer tubes.

We also offer a range of the popular wire line series core barrels including parts and consumable items for core barrels made by most major manufacturers in the market today.
